EXECUTIVE SUMMARY

I'm a Full Stack Developer, I likely have a wide range of skills and experience in both front-end and back-end development. On the front-end, I have experience with HTML, CSS, and JavaScript, as well as popular frameworks and libraries such as React, Angular, or Vue.js. You may also be familiar with responsive design, user experience (UX) principles, and cross-browser compatibility. On the back-end, I have experience with server-side languages such as Python, Ruby, or Node.js, as well as with databases such as MySQL, MongoDB, or PostgreSQL. You may also be familiar with web servers such as Apache or Nginx, and with deploying applications to cloud platforms like AWS, Azure, or Google Cloud Platform. I'm able to work on both the front-end and back-end of a web application, and are able to understand how the different components of a web application interact with each other. I a versatile and valuable member of a development team.
